19. NOTIFICATION OF DELAY

The Contractor will notify the Project Manager as soon as the Contractor has, or should have, knowledge that an event has occurred which will delay completion of this Project. 24. TERMINATION OF AGREEMENT PROVISIONS (FTA CLAUSE)

Applies to all Contracts over \$10,000

(a) Termination for Convenience (General Provision). The recipient may terminate this contract, in whole or in part, at any time by written notice to contractor when it is in the recipient's best interest. Contractor shall be paid its costs, including contract close-out costs, and profit on work performed up to the time of termination. Contractor shall promptly submit its termination claim to the recipient. If contractor is in possession of any of the recipient's property, contractor shall account for same, and dispose of it as the recipient directs.

(b) Termination for Default [Breach or Cause] (General Provision). Termination shall be effected by serving a notice of termination to contractor setting forth the manner in which contractor is in default. Contractor shall only be paid the contract price for supplies delivered and accepted, or for services performed in accordance with the manner of performance set forth in the contract.

(c) Opportunity to Cure (General Provision). The recipient in its sole discretion may, in the case of a termination for breach or default, allow contractor an appropriately short period of time in which to cure the defect. In such case, the notice of termination shall state the time period in which cure is permitted and other appropriate conditions if contractor fails to remedy to the recipient's satisfaction the breach or default or any of the terms, covenants, or conditions of this Contract within ten (10) days after receipt by contractor or written notice from the recipient setting forth the nature of said breach or default, the recipient shall have the right to terminate the Contract without any further obligation to contractor. Any such termination for default shall not in any way operate to preclude the recipient from also pursuing all available remedies against contractor and its sureties for said breach or default.

(d) Waiver of Remedies for any Breach. In the event that the recipient elects to waive its remedies for any breach by contractor of any covenant, term or condition of this Contract, such waiver by the recipient shall not limit its remedies for any succeeding breach of that or of any other term, covenant, or condition of this Contract.

(e) Termination for Convenience (Professional or Transit Service Contracts). The recipient, by written notice, may terminate this contract, in whole or in part, when it is in the recipient's interest. Termination, revocation, or rescission of this Agreement for default shall not affect or impair any rights or claims of ITP to damages for breach of any covenants of this Agreement by the Contractor. Further, should the Contractor fail to comply with the conditions of the Agreement or fail to complete the specified work or furnish the specified services as stipulated in the Agreement, ITP reserves the right to purchase on the open market, or to complete the required work at the expense of the Contractor and to pursue all other recoveries available to ITP under Michigan law.

The Contractor expressly warrants that the goods provided under this Contract shall conform to all specifications, drawings, and other descriptions of the goods made by the Contractor or contained in specifications furnished to the Contractor by ITP, and shall be free from all defects in material, design, and workmanship. The warranties of the Contractor contained in this Contract extend to future performance of the goods sold under this Contract. The Contractor further agrees not to attempt to limit or to exclude any remedies for damages, whether incidental, consequential, or otherwise.

64. WARRANTY AND GUARANTEE

The Contractor hereby warrants to ITP that all the equipment furnished under the procurement shall be free from defects in material and workmanship under normal operating use and service. The Contractor shall provide such a Warranty beginning at the time of final acceptance of the system and continuing for a period of one (1) year on all equipment. The Warranty shall cover all parts and labor costs during the Warranty period. The remedial work to correct any of the potential deficiencies shall include the repair or replacement, at the Contractor's option, of equipment, components, devices and/or material. It is expressly understood that this Warranty covers all parts and labor costs necessary and that all cost for the necessary labor and material during the Warranty period shall be borne by the Contractor and not by ITP except as provided for herein.

The Contractor also agrees to provide all labor and material to replace, during the period of this Warranty, without expense to ITP, any and all parts which may be damaged due to defects in, or failure of such parts or of any other part or parts of the equipment furnished under the procurement. ITP shall maintain the equipment in accordance with the Contractor's instructions in order to maintain this Warranty, and the Contractor shall be responsible for all shipping charges. Contractor shall be solely responsible for all materials and workmanship, including all specialties and accessories, whether manufactured by it or others, used in the equipment and for adequate installation and connection of all equipment, accessories, specialties, and components. Under no conditions shall Contractor delegate this responsibility to suppliers or other sources.

Any apparatus, device, or material which, in the sole opinion of ITP, requires excessive service during its operation, shall be brought to the attention of the Contractor by ITP at the conclusion of the first year but prior to the expiration of the Warranty. The Contractor shall be required to repair or replace the apparatus, device, or material (at his or her determination of the problem and its cause) at no expense to ITP. Should a "class failure" be involved, the Contractor may be required by ITP to extend the Warranty on that item until the requirement for excessive service is eliminated. Excessive service is defined as three (3) failures (an event or failure of a given device and/or component in a unit or units which renders the unit or units inoperative and/or unsuitable for the intended purpose) or malfunctions (an event or failure of a given device and/or component in a unit or units which causes a degraded performance of the equipment but does not render the equipment inoperative) during the Warranty period. A "class failure" is a failure of a given component and/or device in five percent (5%) of the equipment provided during the Warranty period. The determination of a "class failure" shall be by ITP and shall assume that all equipment within its respective category has these defects and shall ultimately experience these same failures.

In the event the Contractor fails to comply within ten (10) working days to a request by ITP to repair, replace or correct damaged or defective work, materials, specialties, equipment and accessories, ITP shall, upon written notice to the Contractor, have authority to deduct the cost of labor and material incurred by ITP itself in making such repairs from any compensation due or to become due the Contractor. In the event the Contractor has been paid, the Contractor agrees to reimburse ITP for the cost thereof. It is understood, however, that the said Warranty or Guarantee will not apply to any equipment which has been repaired or altered without the knowledge or consent of the Contractor and which repair or altering affected its stability and/or reliability; nor will said Warranty or Guarantee apply if the equipment has been subjected to other than normal use under conditions which prevail in ITP service. The burden of proof for any negligence on the part of ITP shall rest with the Contractor. Temperature, humidity, bus vibration and ambient electric conditions shall be considered normal operating conditions for this equipment. The Warranty shall not cover the replacement and maintenance items (such as light bulbs) made in connection with normal maintenance service.

Labor costs for ITP to diagnose and to exchange faulty components, subassemblies or equipment and the shipping costs to return such items to a service location nominated by the Contractor for repair or replacement as provided for herein shall be at the expense of the Contractor. The shipping costs, including packing and insurance, to ship repaired or replaced items to ITP shall be at the expense of the Contractor.

Contractor guarantees that a stock of replacement parts for the equipment and all components thereof will be available for a period of not less the fifteen (15) years after the date of acceptance of the completed system under this Contract by ITP.

The above Warranties are in addition to any statutory implied Warranties or Remedies imposed on the Contractor.

65. INTERCHANGEABILITY

This interchangeability shall extend to the individual components as well as to their locations in the unit.

67. INSPECTION

ITP reserves the right and shall be at liberty to inspect all materials and workmanship at any time during the manufacturing or installation process; provided, however, it is under no duty to make such inspection, and no inspection so made shall relieve Contractor from any obligation to furnish materials and workmanship strictly in accordance with the instructions, Contract requirements and specifications.
- b. Any work or material found to be in any way defective or unsatisfactory shall be corrected or replaced by the Contractor at its own expense at the order of ITP notwithstanding that it may have been previously overlooked or passed by an inspector. (3) If the manufacturer represents that the vehicle was previously tested, the vehicle being sold should have the identical configuration and major components as the vehicle in the test report, which must be provided to the recipient prior to the recipient's final acceptance of the first vehicle. If configuration or components are not identical, the manufacturer shall provide a description of the change and the manufacturer's basis for concluding that it is not a major change requiring additional testing. (4) If the manufacturer represents that the vehicle is "grandfathered" (has been used in mass transit service in the US before Oct. 1, 1988 and is currently being produced without a major change in configuration or components), the manufacturer shall provide the name and address of the recipient of such a vehicle and the details of that vehicle's configuration and major components.

The Contractor will include the provisions of paragraphs (a) through (g) of this subsection in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order 11246 of September 24, 1965, so that such provisions shall be binding upon each Subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the Secretary of Labor or FTA may direct as a means of enforcing such provisions, including sanctions for noncompliance; provided, however, that if a Contractor becomes involved in, or is threatened with, litigation with a Subcontractor or vendor as a result of such direction, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.

73. DAVIS-BACON AND COPELAND ANTI-KICKBACK ACT (FTA CLAUSE)

Applies to Construction Contracts and subcontracts, including actual construction, alteration and/or repair, including decorating and painting, over \$2,000

- (1) Minimum wages - (i) All laborers and mechanics employed or working upon the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics. Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph (1)(iv) of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR Part 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein, provided that the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classifications and wage rates conformed under paragraph (1)(ii) of this section) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers. (ii)(A) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination, and which is to be employed under the contract shall be classified in conformance with

the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:

(1) Except with respect to helpers as defined as 29 CFR 5.2(n)(4), the work to be performed by the classification requested is not performed by a classification in the wage determination; and (2) The classification is utilized in the area by the construction industry; and (3) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination; and (4) With respect to helpers as defined in 29 CFR 5.2(n)(4), such a classification prevails in the area in which the work is performed. (B) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary. (C) In the event the contractor, the laborers, or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary. (D) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs (a)(1)(ii) (B) or (C) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.(iii) Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalents thereof. (iv) If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account, assets for the meeting of obligations under the plan or program. (v)(A) The contracting officer shall require that any class of laborers or mechanics which is not listed in the wage determination, and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefor only when the following criteria have been met: (1) The work to be performed by the classification requested is not performed by a classification in the wage determination; and (2) The classification is utilized in the area by the construction industry; and (3) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination. (B) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.(C) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination with 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary. (D) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs (a)(1)(v) (B) or (C) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

- (2) Withholding - The recipient shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the contractor under this contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), all or part of the wages required by the contract, the grantee may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.
- (3) Payrolls and basic records - (i) Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work (or under the United States Housing Act of 1937, or under the Housing Act of 1949, in the construction or development of the project). Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made, and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs. (ii)(A) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the recipient for transmission to the Federal Transit Administration. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under section 5.5(a)(3)(i) of Regulations, 29 CFR part 5.

This information may be submitted in any form desired. Optional Form WH-347 is available for this purpose and may be purchased from the Superintendent of Documents (Federal Stock Number 029-005-00014-1), U.S. Government Printing Office, Washington, DC 20402. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. (B) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following: (1) That the payroll for the payroll period contains the information required to be maintained under section 5.5(a)(3)(i) of Regulations, 29 CFR part 5 and that such information is correct and complete; (2) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 CFR part 3; (3) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract. (C) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph (a)(3)(ii)(B) of this section. (D) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code. (iii) The contractor or subcontractor shall make the records required under paragraph (a)(3)(i) of this section available for inspection, copying, or transcription by authorized representatives of the Federal Transit Administration or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the Federal agency may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

- (4) Apprentices and trainees - (i) Apprentices - Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Bureau of Apprenticeship and Training, or with a State Apprenticeship Agency recognized by the Bureau, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Bureau of Apprenticeship and Training or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator of the Wage and Hour Division of the U.S. Department of Labor determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Bureau of Apprenticeship and Training, or a State Apprenticeship Agency recognized by the Bureau, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved. (ii) Trainees - Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved. (iii) Equal employment opportunity - The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended and 29 CFR part 30.
- (5) Compliance with Copeland Act requirements - The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract.
- (6) Subcontracts - The contractor or subcontractor shall insert in any subcontracts the clauses contained in 29 CFR 5.5(a)(1) through (10) and such other clauses as the Federal Transit Administration may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.
- (7) Contract termination: debarment - A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.
- (8) Compliance with Davis-Bacon and Related Act requirements - All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3,

and 5 are herein incorporated by reference in this contract.

(9) Disputes concerning labor standards - Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

(10) Certification of Eligibility - (i) By entering into this contract, contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1). (ii) No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1). (iii) The penalty for making false statements is prescribed in 18 USC 1001.

74. PROJECT SIGN

The Contractor agrees to erect a 4' x 8' sign at the Project construction site and maintain the sign for the duration of the Project. The sign shall be satisfactory to ITP and shall include the following information at a minimum: the Project name, ITP's name, Federal, State, and local financial participation information, and the Contractor's name. The sign layout shall be submitted to ITP for review and approval prior to installation.

75. LABOR AND MATERIALS

Unless otherwise provided in the Contract, the Contractor shall provide and pay for labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities, transportation, and other facilities and services necessary for proper execution and completion of the Project, whether temporary or permanent and whether or not incorporated or to be incorporated in the Project.

76. PERMITS AND FEES

Unless otherwise provided in the Contract, the Contractor shall secure and pay for the building permit and other permits and governmental fees, licenses, and inspections necessary for proper execution and completion of the Project which are customarily secured after execution of the Contract, and which are legally required when bids are received, or negotiations conclude.

77. CONSTRUCTION SCHEDULE

The Contractor, promptly after being awarded the Contract, shall prepare, and submit for ITP's information, a Contractor's Construction Schedule for the Project. The schedule shall not exceed time limits current under the Contract, shall be revised at appropriate intervals as required by the conditions of the Project, shall be related to the entire Project to the extent required by the Contract, and shall provide for expeditious and practicable execution of the Project.

78. CLEAN UP

The Contractor shall keep the premises and surrounding area free from accumulation of waste materials or rubbish caused by operations under the Contract. At completion of the Project, the Contractor shall remove from and about the Project waste materials, rubbish, the Contractor's tools, construction equipment, machinery, and surplus materials. If the Contractor fails to clean up as provided in the Contract, ITP may do so, and the cost thereof shall be charged to the Contractor.

79. SUBCONTRACTORS

Contractor shall be fully responsible for all acts and omissions of Subcontractor's and of persons directly or indirectly employed by them and persons for whose acts any of them may be liable to the same extent that Contractor is responsible for the acts and omissions of persons directly employed by Contractor. Nothing in the Contract shall create any contractual relationship between any Subcontractor and ITP or any obligation on the part of ITP to pay or to see to the payment of any moneys due any Subcontractor, except as may otherwise be required by law. ITP may furnish to any Subcontractor, to the extent practicable, evidence of amounts paid to Contractor for specific work done.

80. SAFETY AND PROTECTION

Contractor shall be responsible for initiating, maintaining and supervising safety programs in connection with the Project. Contractor shall take precautions and provide protection to prevent damage, injury, or loss to:

- A. Employees on the Project and other person who may be affected thereby;
 - B. The Project and materials or equipment to be incorporated therein, whether in storage on or off the site; and,
 - C. Other property at the site or adjacent thereto, both above and below ground, not designated for removal, relocation, or replacement. Contractor shall erect and maintain necessary safeguards for safety and protection of property and shall notify ITP of adjacent utilities when performance of the Project may affect them. Contractor shall be responsible for costs associated with all damage, injury, or loss.
- Damage, injury, or loss to property referred to in this Article caused, directly or indirectly, in whole or in part, by Contractor, any Subcontractor and anyone directly or indirectly employed by any of them and anyone for whose acts any of them may be liable, shall be remedied. Contractor duties and responsibilities for the safety and protection of the Project shall continue until the Project is completed and ITP has issued the Certificate of Completion.

81. EMERGENCIES

In emergencies affecting the safety of persons, the Project or adjacent property, Contractor, without authorization from ITP, is obligated to act, at Contractor's discretion, to prevent threatened damage, injury, or loss. Contractor shall give ITP prompt notice of the emergency action taken, and any significant changes in the Project or deviations from the Contract caused thereby.

82. WORK BY OTHERS

ITP may perform or may contract with others to do additional work related to the Project. Contractor shall afford others a reasonable opportunity to perform work as well as to store materials and equipment on site and shall properly integrate and coordinate Contractor's work with others. Contractor shall coordinate and cooperate with Contractor's working in the area for other ITP's or jurisdictions.

If any part of Contractor's work depends on proper execution or results upon the work of other Contractor's, or ITP, Contractor shall inspect and promptly report to ITP any defects or deficiencies in such work. Contractor's failure to so report shall constitute an acceptance of the other work as fit and proper for integration with Contractor's work.

83. REJECTING DEFECTIVE WORK

ITP Project Manager will have authority to disapprove of or reject defective work. ITP Project Manager will also have authority to require special inspection or testing of work whether or not the work is fabricated, installed, or completed.

84. CHANGE ORDERS

Without invalidating the Contract, ITP may, at any time, order additions, deletions, or revision in the Project by Change Orders. Upon receipt of an executed Change Order, Contractor shall proceed with the work involved. ITP Project Manager may authorize minor changes or alterations in the Project not involving extra cost and not inconsistent with the overall intent of the Contract. These changes will be authorized by a Bulletin and will be binding upon ITP and Contractor. Additional work will be binding upon ITP and Contractor. Additional work performed by Contractor without authorization of a Change Order will not entitle Contractor to an increase in the Contract Price or an extension of the Contract Time, except in the case of an emergency as set forth in these Contract Conditions.

85. CHANGES IN CONTRACT PRICE

The Contract Price constitutes the total compensation payable for performing all duties, responsibilities and obligations assigned to or undertaken by Contractor. The Contract Price may only be changed by a Change Order. Claims for a change in the Contract Price shall be submitted to ITP Project Manager within fifteen (15) calendar days of the occurrence of the event giving rise to the claim with supporting data. Claims for extra compensation shall not be made by Contractor for reasonable delays caused by the work of other Project Contractors or Subcontractors or due to the failure of ITP to perform any obligations required of ITP under this Contract.

Value of work covered by a Change Order shall be determined as follows:

- A. Where work is covered by Contract unit prices by application of unit prices to the items involved.
- B. By mutual acceptance of a lump sum.
- C. On the basis of the cost of the work, plus overhead and profit, but only in the event ITP and Contractor cannot agree on one of the above methods.

86. ACCESS TO WORK

The ITP Project Manager, his/her representatives, and representatives of ITP shall at all times have access to the Project. Contractor shall provide proper facilities for access, observation of the work, and for any inspection or testing by manufacturers, suppliers, material men, and other parties as authorized by ITP.

87. CORRECTION OR REMOVAL OF DEFECTIVE WORK

Contractor shall promptly, as specified by the ITP Project Manager, either correct any defective work or remove it from the site and replace it with non-defective work. If Contractor does not correct or remove and replace such rejected work within a reasonable time, ITP may have the deficiency corrected or the rejected work removed and replaced by others. All direct and indirect costs of such correction or removal, and replacement, including compensation for additional engineering services, shall be paid by Contractor in an amount as verified by the ITP Project Manager. Contractor shall also repair all work of others destroyed or damaged by replacement of Contractor's defective work.

88. NEGLECTED WORK BY CONTRACTOR

If Contractor should neglect to prosecute the work diligently, including requirements of the Construction Schedule, ITP, after seven (7) days' Notice to Contractor may, without prejudice to any other remedy that ITP may have, correct, and remedy any such deficiency. Direct and indirect costs of ITP, including compensation for additional engineering services, shall be verified by ITP Project Manager and an appropriate reduction in the Contract Price will be made. If the payments due Contractor are not sufficient to cover such amount, Contractor shall pay the difference to ITP.

89. PROGRESS PAYMENTS AND RETAINAGES

For Projects with a Construction Schedule exceeding ninety (90) days, Contractor may submit requests for partial payment. Payment requests shall be proportional to work completed on the Project. ITP will retain ten (10%) percent of any payment until final completion of the Project.

90. PAYMENT DOES NOT IMPLY ACCEPTANCE OF WORK

The granting of any progress payment or payments by ITP, or the receipt thereof by the Contractor, shall not constitute in any sense acceptance of the work or any portion thereof, and shall in no way lessen the ability of the Contractor to replace unsatisfactory work or material, though the unsatisfactory character of such work or material may not have been apparent or detected at the time such payment was made. Materials, components, or workmanship which does not conform to the instruction of these Contract requirements and specifications or are not equal the samples submitted to and approved by ITP Project Manager will be rejected and shall be replaced by the Contractor without delay.

91. CONTRACTOR'S WARRANTY OF TITLE

Contractor warrants and guarantees that title to all work, materials and equipment covered by monthly payment requests, passes automatically to ITP at the time of payment, free and clear of all liens.

92. PAYMENT WITHHELD

The ITP Project Manager may not approve any payment or may nullify any payment previously recommended, to such extent as may be necessary to protect ITP from loss because:

- A. Work is defective or completed work has been damaged requiring correction or replacement.
- B. Written claims have been made against ITP or liens have been filed in connection with the Project.

- C. Contract Price has been reduced by Modifications.
- D. ITP has been required to correct defective work or complete neglected work.
- E. Unsatisfactory prosecution of the Project, including failure to clean-up or failure to perform testing as required by field quality control.

93. SUBSTANTIAL COMPLETION

When ITP Project Manager considers that the Project has been substantially, but not entirely completed, and full completion thereof is materially delayed through no fault of Contractor, the ITP Project Manager will issue a Certification of Substantial Completion. Liquidated damages for that portion of work will not be assessed beyond the date of Substantial Completion.

94. NOTIFICATION OF COMPLETION

When Contractor considers the work required in the performance of this Contract to be complete and ready for final inspection, Contractor shall so notify ITP Project Manager.

95. INCIDENTAL CONSTRUCTION WORK

AIA Document A201, General Conditions of the Contract for Construction, 1987 Edition, shall apply to all construction work, including concrete work, associated with this Project.

96. QUANTITY OPTIONS

ITP reserves the unilateral right to increase order quantities up to 50 percent of the maximum amounts shown on the proposal form. Notice of any increase in quantities will be included in the Notice to Proceed.
