## SECTION 2: SCOPE OF WORK

### 2.1 Introduction

RFP for A&E Services for a Passenger Amenity Rehabilitation for Rapid Central Station, located at 250 Cesar E. Chavez Ave SW, Grand Rapids, MI.

The procurement will be conducted using the Federal Government's Brooks Act method. The Brooks Act allows for the selection of Architectural & Engineering firms (A&E) to be done on qualifications alone, with price not being an issue in the selection process. ITP will base the award on the qualifications of the A&E firms and once a firm has been selected their price proposal will be opened. **A price for the work will then be negotiated with the selected firm.** If a satisfactory price cannot be negotiated with the most qualified firm, negotiations will be terminated, and a new set of negotiations will begin with the next most qualified A&E firm. This process will continue until ITP feels it has achieved a satisfactory price for the work. Sealed prices will only be opened for those firms that are being negotiated with

### 2.2 Project Description

ITP constructed Rapid Central Station (RCS) in 2004 as the first LEED-certified transit facility in the country. RCS is located at 250 Cesar E. Chavez Avenue SW and serves as the downtown transit center for ITP's fixed route bus service, providing a transfer point for 17 different routes. Given the facility is now 18 years old, it is necessary to rehabilitate the passenger amenities at RCS. See Attachment-5 for a series of images showing the current design and layout of RCS.

ITP is currently working with local organizations to implement a daycare in the Rapid Central Station building. While this should not directly impact this project, any A&E work must coordinate with these efforts to ensure that any proposed projects do not interfere with the new childcare center.

ITP is seeking a vendor to conduct Architectural and Engineering (A&E) work to design the rehabilitation of RCS. The A&E tasks of the project include the following items:

- 1) Rehabilitate/replace all the passenger seating and information amenities, including benches, tables, trash receptacles, planters, and information kiosks. The vendor will evaluate these amenities and determine a plan to rehabilitate, replace or upgrade these amenities.
- 2) Incorporate infotainment displays as part of the passenger amenities. The bus stop locations on the platform do currently display next bus arrival information, the vendor will evaluate electronic passenger information options and determine an implementation plan to upgrade these amenities.
- 3) Create a plan to repair the passenger platform surface. The vendor will evaluate the current state of the platform itself and determine a plan to bring the platform surface to a state of good repair. Note that there is snowmelt in a portion of the platform that must be accounted for, the vendor will also evaluate the snowmelt system and determine any changes or improvements necessary for it, see Attachment 5 for details.

- 4) Create a plan to upgrade passenger lighting on the platform. This may include creative lighting treatments that enhance the passenger experience while waiting at RCS.
- 5) The canopy which is over the RCS platform is nearing the end of its useful life and must be updated. The vendor should evaluate the current state of RCS canopy and make suggestions for either replacement or redesign options.
- 6) The passenger information booth is currently located inside the RCS waiting lounge. The vendor should evaluate information booth options and determine how ITP can best serve its customers through the information booth. This could include either enhancing the current location or locating it at an alternate site at RCS. Note that there may be a concurrent project to locate a daycare center inside RCS, which may affect what needs to be done with the information booth, the vendor must coordinate with any such activity if it does occur.
- 7) Evaluate all other aspects of the passenger experience on the RCS platform and determine further upgrades that should be incorporated as part of the project.

Public input into these enhancements is a vital part of the project. The successful vendor must create a Public Outreach Plan on how to best incorporate public input into the design and selection of the amenities to be included in this project. This could include such things as:

- Pop-up public meetings
- Surveys
- Focus Groups
- On-line and social media outreach
- Display information.

### 2.3 Scope of Work

The selected A/E firm will be responsible for the following:

- 1) All work submitted to ITP shall be approved by an Architect or Engineer licensed in the State of Michigan unless otherwise permitted by ITP.

- Preparation of reports or correspondence regarding the project per ITP request.
- Word process and publish project manuals and drawings, including documents furnished by ITP.

Requests for payment by the A/E firm should be submitted directly to the Accounts Payable staff for approval and processing.

## SECTION: 3 CONTENTS OF PROPOSAL

The following information, at a minimum, shall be included as part of the proposal. **This procurement is governed by the Brooks Act, which requires selection solely on the basis of qualifications.**

### 3.1 Firm and Staff Qualifications

The proposal shall include a general description of the firm and its background. Specific information about the firm and staff shall also be provided to include:

- A. Information regarding the firm's previous experience with similar or related Projects.
- B. Information demonstrating the firm and staff capabilities to perform all aspects of this project.
- C. Information demonstrating the firm and staff commitment to the needs of a public transit operator.
- D. Information regarding the expertise and experience of staff person(s) to be assigned to work on the Project. It should also contain specific proposed responsibilities of the Project staff person(s), and coordination of activities with ITP staff.
- E. References for all similar or related Projects if firm has not performed work previously for ITP.

### 3.2 Financial Proposal

**The Financial proposal shall be submitted in a separate file / sealed envelope. The financial proposal will only be opened for the proposer deemed to have the best overall proposal.** Since ITP is not soliciting bids for a specific project at this point, a precise bid sheet would be impossible to fill out. Instead, budgets should conform to the requirements of the FTA for third-party contracts. The following information is required.

The Financial proposal must be submitted in a separate file or sealed envelope on Attachment 7, Project Costs Form, included below. The financial proposal will only be opened for the proposer deemed to be 'most qualified'. The remaining sealed financial proposal envelopes will be returned unopened to the individual proposers. The budget shall be broken down into the following applicable categories:

- Direct Labor
- Overhead
- Materials
- Travel
- Subcontract(s)
- General And Administrative Expenses
- Fixed-Fee Or Profit.

As a guideline, proposed overhead rates should conform to the Federal Acquisition Regulations as established by a governmental audit or certified by a Certified Public Accountant, **but in no case will ITP pay a total overhead rate which exceeds one hundred fifty percent (150%) of direct labor.** Profit rate shall be applied only to direct labor plus overhead **and shall not exceed ten percent (10%).** No mark up or profit shall be paid on non-labor related job costs, reimbursable, or on services provided by subcontractors.

**Prior to any negotiation, the selected consultant will be required to provide written confirmation of proposed overhead rates as well as proposed total compensation** utilizing the rates shown in the proposal and detailing man hours needed for each activity, number of sheets required for drawings, amount proposed for surveys, related investigations, and all other costs associated with this project.

It is understood that ITP will not be responsible for payment of additional work unless a written estimate is provided and a written authorization are obtained from The Rapid. Under no circumstances shall additional charges be allowed without prior written authorization.

### 3.3 Certifications

Failure to submit the attached certificates will lead to a firm being judged as non-responsive.

- Attachment 1: Certification of Primary Contractor Regarding Debarment, Suspension, and Other Responsibility Matters.
- Attachment 2: Certification of Lower-Tier Participants (subcontractors) Regarding Debarment, Suspension, and Other Ineligibility and Voluntary Exclusion.
- Attachment 3: Certification of Restrictions on Lobbying.
- Attachment 4: DBE Certification
- Attachment 5: Certification of Compliance with FTA Clauses

### 3.4 Proposal Price

Proposals shall include price or cost information in a separate file attachment – See Attachment 7. Firms will be rated based on qualifications alone. The firm with the highest qualification-based score will have its price proposal opened and negotiations will commence to secure a contract. If negotiations are unsuccessful, ITP will then open the price proposal of the second highest scoring firm and attempt to negotiate a successful contract with that firm, and so on. Price proposals of unsuccessful proposers will be returned unopened.

## SECTION 4: EVALUATION OF PROPOSALS

The evaluation procedure will be a three-step process.

**Step 1:** All initial proposals received will be scored by an evaluation committee. Those proposals which are judged to be the strongest will be short-listed. Short listing will not be arbitrary. Those firms that have a reasonable expectation of winning the competition will advance to the second step of the process. Those proposers who lack sufficient points will be rejected at the end of Step 1.

The qualifications of each responding firm will be reviewed and scored in these specific areas in their relative order of importance:

### Firm And Staff Qualifications

- A. Capability and experience of the firm and any subcontractors in comparable previous Projects. Ability of the firm to perform similar work within budget and time constraints; and the quality of similar finished Projects.
- B. Expertise and experience of staff person(s) to be assigned to the Project and subcontractors, particularly the Project Manager.
- C. Capabilities of the firm and staff (and subcontractors) to perform all aspects of the Project.
- D. Relevant experience from other projects.

**Step 2:** Those short-listed firms will be allowed to make oral presentations to the evaluation committee. Each presentation will be scored by the committee. The firm which receives the highest combined score from both the proposal and the presentation will be judged to be the most technically qualified.

### **Step 3:** Negotiation:

ITP will initially negotiate with the most technically qualified firm to establish fair and reasonable compensation for A/E services. If a fair and reasonable price cannot be negotiated, the firm will be eliminated from consideration for contract award. ITP will then negotiate with the next most technically qualified firm to arrive at a fair and reasonable price. This process will continue until ITP is able to negotiate a fair and reasonable price with a qualified firm.

**SECTION 5: INSTRUCTIONS TO BIDDERS**  
**INTERURBAN TRANSIT PARTNERSHIP**  
**GENERAL**

ITP reserves the right to postpone answers to any questions raised at this meeting until a later date. Any oral explanations provided by ITP during this meeting will not be binding upon ITP until they are reduced to a written form by ITP and given to all interested bidders. Bidders seeking a written response by ITP to their questions at the Pre-Bid/Re-Proposal Conference are requested to submit their questions in writing to ITP in advance. ITP will make every effort available to respond at the Pre-Bid Conference. Attendance at the Conference is not mandatory but is encouraged by ITP.

The decision of ITP, as represented by the Chief Executive Officer, shall be final with respect to whether any proposed deviations from the specifications are acceptable. It should be understood that specifying a brand name, components, and/or equipment in this specification shall not relieve the supplier from his responsibility to produce the product in accordance with the performance warranty and contractual requirements. The supplier is responsible for notifying ITP of any inappropriate brand name, component, and/or equipment that may be called for in the specifications, and to propose a suitable substitute for consideration.

## 7. PROTEST PROCEDURES

Notice of the postponement will be made in writing by addendum.
- (h) Representatives of ITP and the protester shall meet within twenty-four (24) hours after receipt of the protest or at such a time as mutually agreed, to discuss all substantive issues raised in the protest. Upon completion of discussion between ITP and the protester, the ITP CEO will transmit a final decision in writing to the protester within five (5) working days. The final decision will respond to each substantive issue raised in the protest. - (i) Protests by any adversely affected person for reasons other than for restrictive specifications or alleged improprieties in the solicitation must be made in writing and received by the ITP Purchasing Manager not more than three (3) working days after the posting of the Notice of Award is made to the participating bidders. Upon receipt of a protest after Contract award, ITP shall immediately determine if work on the protested Project should be suspended until such time as the protest is resolved.
- (j) Representatives of ITP and the protester shall meet within twenty-four (24) hours after receipt of the protest or at such time as mutually agreed to by both parties to discuss the protest. Upon completion of discussions between ITP representatives and the protester, ITP will issue a written

- (k) Except as noted in paragraph (l), ITP will not open bids, receive proposals or award a contract if a formal written protest has been received and no final decision has been issued by the ITP CEO. After the issuance of a final decision, ITP will wait a minimum of five (5) working days before opening bids or proposals or before awarding a Contract for a Project.
  - (l) ITP may open bids, receive proposals, and award a Contract for a Project while a protest is pending final disposition when the ITP CEO determines that:
    - The items to be procured are urgently required;
    - Delivery or performance will be unduly delayed by failure to make an award promptly; or,
    - Failure to make prompt award will otherwise cause undue harm to ITP or the Federal Government.
  - (m) Protester may request a reconsideration after a final decision has been issued by the ITP CEO within five (5) working days after the issuance of a final decision if new data or information becomes available that was not previously known, or there has been an error of law or regulation.
  - (n) The provisions of Chapter V of FTA Circular 4220.1F (3/18/2013), are hereby incorporated and made part of the rules of ITP. Protests to the FTA by a protester must be made in accordance with FTA Circular 4220.1F. FTA will only consider a protest that alleges failure of ITP to have a written protest procedure or failure to follow such procedure. Alleged violations of a specific Federal requirement that provides an applicable complaint procedure shall be submitted and processed in accordance with that Federal regulation.
  - (o) Any appeal or protest may be withdrawn at any time.

40. CONTRACTS INVOLVING FEDERAL PRIVACY ACT REQUIREMENTS (FTA CLAUSE)

*When a grantee maintains files on drug and alcohol enforcement activities for FTA, and those files are organized so that information could be retrieved by personal identifier, the Privacy Act requirements apply to all contracts except micro-purchases (\$10,000 or less, except for construction contracts over \$2,000*

The following requirements apply to the Contractor and its employees that administer any system of records on behalf of the Federal Government under any contract:

- (1) The Contractor agrees to comply with, and assures the compliance of its employees with, the information restrictions and other applicable requirements of the Privacy Act of 1974, 5 U.S.C. § 552a. Among other things, the Contractor agrees to obtain the express consent of the Federal Government before the Contractor, or its employees operate a system of records on behalf of the Federal Government. The Contractor understands that the requirements of the Privacy Act, including the civil and criminal penalties for violation of that Act, apply to those individuals involved, and that failure to comply with the terms of the Privacy Act may result in termination of the underlying contract.
- (2) The Contractor also agrees to include these requirements in each subcontract to administer any system of records on behalf of the Federal Government financed in whole or in part with Federal assistance provided by FTA.

41. DBE & NON-DBE SUBCONTRACTOR'S PAYMENT & REPORTING REQUIREMENTS (FTA CLAUSE)

*Applies to all contracts except micro-purchases (\$10,000 or less, except for construction contracts over \$2,000)*

a. Prompt Payment

The prime contractor agrees to pay each subcontractor under this prime contract for satisfactory performance of its contract no later than 10 days from the receipt of each payment the prime contractor receives from ITP. The prime contractor agrees further to return retainage payments to each subcontractor within 10 days after subcontractor's work is satisfactorily completed. Any delay or postponement of payment from the above referenced time frame may occur only for good cause following written approval of ITP. This clause applies to both DBE and non-DBE subcontractors.

B) Contractor Reporting Requirements

The prime contractor agrees to count only the value of the work actually performed by the DBE firm toward its overall DBE goal. When a DBE performs as a participant in a joint venture, the prime contractor agrees to count the portion of the work of the contract that the DBE performs with its own forces toward its DBE goal only if the DBE is performing a commercially useful function of the contract. The factors listed in 49 CFR Part 26 will be used to determine whether a DBE trucking firm is performing a commercially useful function. The prime contractor understands that expenditures with DBEs for materials or supplies toward DBE goals will be counted according to the factors listed in 49 CFR Part 26. The prime contractor agrees to meet with the ITP DBE Liaison Officer for the purpose of verifying contractor reporting requirements prior to the signing of a contract.

C) Legal and Contract Remedies

The prime contractor agrees to report quarterly to the ITP DBE Liaison Officer on all payments made to DBE subcontractors. Further, the contractor shall provide all copies of canceled checks made to DBE subcontractors showing proof of actual payment. The prime contractor understands that failure to report quarterly to the ITP DBE Liaison Officer may result in the termination of this contract or such other remedy as ITP deems appropriate.

The prime contractor understands that ITP will bring to the attention of the Department of Transportation any false, fraudulent, or dishonest conduct in connection with the program, so that DOT can take the steps (e.g., referral to the Department of Justice for criminal prosecution, referral to the DOT inspector General, action under suspension and debarment of Program Fraud or Civil Penalties rules) provided in 26.109. The prime contractor understands that ITP will consider similar action under their own legal authorities, including responsibility determinations in future contracts.
